

PRATIK SHINDE

Software Developer | Java Backend Engineer | Spring Boot & Microservices

pratikshinde1002@gmail.com | +91-7507444969 | Chhatrapati Sambhajnagar, Maharashtra, India | linkedin.com/in/pratik-shinde-a113b3220

PROFESSIONAL SUMMARY

Results-driven Software Developer with 2.10+ years of professional experience in designing, developing, and optimizing scalable backend applications within the banking and financial services domain at Tata Consultancy Services (TCS). Demonstrates strong expertise in Java, Spring Boot, Microservices, REST APIs, and distributed systems, with hands-on experience in high-volume payment processing including SWIFT and SEPA transactions. Proven track record of enhancing application performance, resolving critical L3 production issues, and delivering secure, high-performing, and reliable enterprise solutions across Agile environments.

WORK EXPERIENCE

Systems Engineer

Sep 2023 – Present

Tata Consultancy Services (TCS) | Thane, India

- Engineered and maintained Java-based payment processing systems handling high-volume transactions, ensuring 99.9% system availability and reliability across enterprise banking infrastructure.
- Optimized batch and real-time payment processing flows for SWIFT and SEPA transactions, achieving approximately 20% reduction in processing time through performance tuning and code optimization.
- Delivered L3 production support by diagnosing and resolving critical incidents, reducing system downtime by 30% through systematic Root Cause Analysis (RCA) and corrective action implementation.
- Debugged and enhanced core Java components, significantly improving overall system performance, stability, and maintainability of mission-critical banking applications.
- Designed and implemented reconciliation and settlement modules, ensuring accurate financial reporting and compliance with banking regulatory standards.
- Integrated IBM MQ and SFTP systems to facilitate secure, reliable, and efficient data exchange across distributed enterprise banking platforms.
- Collaborated with cross-functional teams in an Agile Scrum environment to deliver timely releases, manage sprint deliverables, and ensure alignment with business objectives.
- Participated in code reviews, unit testing, system testing, and CI/CD pipeline execution to uphold code quality standards and accelerate deployment cycles.

PROJECTS

Banking Payment Processing System — Developed and maintained Java Spring Boot microservices for high-volume SWIFT and SEPA payment processing. Built REST APIs, optimized backend performance, and resolved critical L3 production issues. *Technologies: Java, Spring Boot, Microservices, REST APIs, Oracle SQL.*

Enterprise Banking Transaction Management System — Architected backend services for transaction validation, reconciliation, and settlement leveraging Java, Spring Boot, and Oracle SQL to ensure data integrity and compliance. *Technologies: Java, Spring Boot, Oracle SQL, Hibernate.*

Enterprise Banking Infrastructure Modernization & Test Automation — Enhanced legacy banking applications by implementing scalable microservices architecture and REST APIs. Contributed to CI/CD automation, testing, and production deployments. *Technologies: Java, Spring Boot, Jenkins, Docker, Git.*

TECHNICAL SKILLS

Programming Languages: Java, COBOL, TACL, TAL, ENFORM, DDL, TACL MACRO, Python, HTML, CSS, JavaScript

Backend Technologies: Spring Boot, Microservices, REST APIs, Hibernate, JPA, Java 8, Collections, Streams API, Lambda, Functional Interfaces, Exception Handling, Concurrency

Security: Spring Security, JWT Authentication, OAuth

Messaging & Integration: Apache Kafka, IBM MQ, RabbitMQ, SFTP, Event-Driven Architecture

Databases: Oracle SQL, PostgreSQL, SQL Database Optimization

Testing: JUnit, Mockito

DevOps & CI/CD: Docker, Jenkins, Git, Bitbucket, Maven, CI/CD Pipelines

Utilities: FUP, DBUX, ENSCRIBE, SQLCI

Environment / Platforms: HP TANDEM, HP NONSTOP, CAIL NODES, RMS

Methodologies & Tools: Agile Scrum, JIRA, IntelliJ IDEA, Root Cause Analysis (RCA), L3 Production Support, Application Monitoring

ACHIEVEMENTS

- ★ **TCS On Spot Award (2024)** — Recognized for outstanding technical contribution and system stability improvements in high-pressure financial environments, demonstrating exceptional problem-solving skills and dedication to operational excellence.

EDUCATION

MCA (Master of Computer Applications)

Jul 2022 – Jun 2024

Dr. D Y Patil University, Pune, Maharashtra

B.Sc. Computer Science

Jun 2019 – Jul 2022

Dr. Babasaheb Ambedkar Marathwada University, Chhatrapati Sambhajnagar
